

Animal Crossing: New Horizons diorama

How to assemble:

Kids, ask a grown-up for help with scissors!

STEP 1 Cut out the top bar, the background, and the bottom bar carefully along the dotted lines.

STEP 2 Fold back the tabs on the top and bottom bars along the solid line, then tape or paste tabs to the back of the background piece as shown. The background piece should curve slightly.

STEP 3 Cut out the characters and flowers carefully along the dotted lines. For the characters, tape or paste bottom strips together at the blue tab to make a loop at the base. For the flowers, tape or paste the tabs to the back of the bottom bar.

STEP 4 Place the standing characters in the middle of the diorama. Great job!
